Squaw Continues To Have Service From Post Office

SQUAW VALLEY—The post office at Olympic Valley resumed service Wednesday morning after it was suspended Saturday afternoon and will continue on a temporary basis until its position is solidfied by postal authorities.

Postmaster Oliver Corona, under whose supervision the office operated for the past five years, said an advertisement for bids to keep the office operative after the contract with Mr. and Mrs. Wayne Poulsen expired, failed to bring results and suspension was demanded.

A citizens' meeting, with some 100 intensely interested persons attending, was held Monday with Corona and Mrs. Poulsen, in whose building the post office has been housed, and the people were given helpful answers to their problems, according to Mrs. Caroline Williams, who was chosen as chairman of the group.

It was pointed out that continuance of a post office in the valley hinges on stamp sales and those

Seven Treated As Many Cars Pile Up

Seven people were treated at the Tahoe Forest Hospital and between 12 and 15 cars were involved in a series of accidents shortly before midnight Friday, near Donner Summit on Interstate 80. None suffered serious injuries, the California Highway Patrol reported.

Only four of the cars were directly involved, the others sustaining only minor damage.

It all started, the partol reported, when a car driven by George C. Knoder, 57, Berkeley, stopped on the road while traveling east down the grade. Three other cars following, driven by Jessie Otkins, 40, San Francisco, Betty Medley, 29, Concord and Suzanne A. Gagnon, 22, Hillsborough, collided into the rear of the Knoder vehicle and one another.

Knoder was cited for making an unsafe stop and the others for traveling too fast for conditions of the road.

Taken to the hospital were the four drivers, Robert Medley, 37, Concord, Emma Glenn, 38, San Francisco, and Britony Yonts, 22, Hillsborough.

More Trees Will Be Planted Over Burn

Another 127,000 trees will be planted on 314 additional acres of the area burned over in the Donner Ridge fire during the coming season, it was announced this week by the U. S. Forest Service following the opening of bids on the project Monday.

Orlo Fletcher of Susanville was the successful bidder on the local project, with a bid of $20 an acre for 140 acres of replant with 350 trees per acre and $25 an acre for initially planting 450 trees per acre on 174 acres.

Work will start as soon as the snow is gone and soil conditions permit.

Work of replanting the Donner Ridge burn has been continuing over the past few years. The fire swept over 39,000 acres five years ago and the tedious and costly work of reforesting is continuing each year.

DISTRICT ELECTION IS SLATED FOR MAY 4TH

April 2 has been established as the final date for prospective candidates to file application petitions for the general election in the Truckee Public Utility District set for May 4.

Two directors will be elected for four year terms. The incumbents, both of whom are expected to file for reelection, are Nace Firpo and Charles Fink, the latter having been appointed recently to the board.

Nomination petitions are available from Francis Longo, manager of the district and clerk of the board.

The last day to register to vote at the election will be March 11, a week from today.

Lake Tahoe level stood at 6227.02 on Wednesday, with a moderate flow of 62 cubic feet per second leaving the lake. High temperature for the week occurred on February 26, followed by the low of 16 degrees on March 2, according to the record of Daryl De Walt's office in Tahoe City.

Sanitary Board To Seek Funds To Aid In Sewer Program

Directors of the Truckee Sanitary District met in the county government building Tuesday night to go over plans for the proposed extension of the sewer system with Dan Cook, engineer from Gillette and Harris, the district's engineers.

The board is applying for $161,000 from the state under Public Law 660. Application for the money must be made during March and a decision on the district's need is expected early in June.

The board is considering plans to use the funds along with $483,000, the maximum under a proposed general obligation bond issue, to start the project by acquiring land for a disposal plant and to install a main to serve the Donner Lake, Meadow Park and Donner Trail communities.

While the entire project will cost approximately $2.8 million, the $644,000 would get the program well under way and additional federal, state and local funds would be requested to finance the work.

The board and Harry Stout of the Truckee Donner Disposal Service will cooperate in the employment of a CPA to determine if a raise in rates is justified.

Hendrickson Gets Hospital Privilege

Superior Judge Vernon Stoll Monday issued a writ of mandate favoring Dr. Edwin O. Hendrickson in granting full staff privileges at the Tahoe Forest Hospital. He also clarified the meaning of full privileges to include orthopedic surgery which Dr. Henrdickson claims is specialty.

The court previously granted an alternate writ of mandate on December 1 granting the plaintiff full privileges on a temporary basis until a final ruling could be made. Monday, the court reviewed the transcript of a hearing that was given to Dr. Hendrickson by the hospital board and declared there was not sufficient evidence to deny his request.

Providing the hospital board wishes to contest the permanent writ, the board must grant another public hearing within 90 days and produce additional evidence.

Dr. Henrickson operates an orthopedic clinic at Soda Springs.

Sharon Schultz To Represent Local Chamber In Races

Running in her first race, Mrs. Sharon Schultz of Donner Lake, clerk in the office of Judge F. W. Wilson, during the weekend gave further proof that men mushers do not have a monopoly on dog racing.

Mrs. Schultz, wife of Gene Schultz, a veteran musher, came in fourth in the Mammoth Lake derby Saturday and Sunday against a field of 13 teams.

Gary Gunkel and his Irish setters captured first place, while Doug Bart of Williams, Arizona, was second and Lee Fishback of Grass Valley was third. These are all experienced drivers with records to their credit. There were only three women drivers entered and two dropped out after the first day's race of 12 grueling miles. The second day also was for 12 miles.

The Truckee-Donner Chamber of Commerce will sponsor a dog team in both the Ebbetts Pass races this weekend and at the Tahoe-Sierra derby at Kings Beach, March 13 and 14, with Mrs. Sharon Schultz piloting the team this week and her husband, Gene, competing in the Kings Beach races next week.

N. F. Dolley, president of the chamber, said he had contacted Mrs. Schultz following her brilliant victory in taking fourth place in the Mammoth Lake dog races last week and she has agreed to carry the Truckee-Donner banner.

Mrs. Schultz was so enthusiastic over her win, she has decided to enter the Ebbetts Pass races this weekend, providing the soreness leaves her and she is able to compete.

Drivers and teams are getting in shape for the fourth annual Sierra Dog Derby slated for March 13 and 14 at the Brockway Golf Course, an event sponsored by the North Lake Tahoe Chamber of Commerce.

Following emergency treatment at the Tahoe Forest Hospital where he was taken by Truckee Ambulance, he was removed to Washoe Medical Center in Reno where he expired shortly after midnight.

The boy's father has had the Bee distributorship here for several weeks and both he and his son were well known and liked.

February Was Dry Records Reveal

Had it not been for the small storm which came into this area Friday night, leaving .67 of an inch of precipitation in 2½ inches of wet snow, February might have set a record for dryness.

The U. S. Forest Service records show that during the entire month there was a total of 3½ inches of snow and .88 of an inch of precipitation. Last year, February set a record with only .15 of an inch of precipitation and there were six inches of snow on the ground at the Forest Service station on March 1. Local Opposition To County Plans

The Nevada County Board of Supervisors has delayed until the March 16 meeting formal action on setting up a county recreation district.

Dean Lawrence, county counsel Monday presented the board with a program but most of them asked for additional time to study the matter.

At the same time, Supervisor H. G. Hoehr who represented the fifth district, advised other members that a suitable recreation district is currently operating in this end of the county and that the people here want nothing to do with a county recreation district.

The proposed ordinance would set up a five member commission, one from each supervisorial district, with terms running concurrently with those of the appointing supervisor. Other county officials, G. Loehr who represented the fifth including a supervisor, school superintendent, health officer and planning director, could sit with the commission in an ex-officio capacity.

Nevada County is expecting some $75,000 from the state from the park and beaches bond money and the recreation program was suggested to handle this fund.

An unanswered request to determine the status of this district providing a county-wide district is formed was sent to the county counsel, Dr. H. P. Tapia, a member of the local recreation commission, declared. An exclusion will be demanded for the fifth district, Tapia and Loehr declared.

New Building Will Be Constructed In Sierra College Plan

The next two years will see the construction of six new buildings costing more than $1.7 million on the Sierra College campus, administrators stated last week at the Rocklin campus.

The expansion will involve the use of approximately $375,000 in federal revenue bonds, $50,000 in other federal funds and $250,000 in state bond monies from Proposition 1A, it was estimated. Local funds made available by the 1963 tax override will complete the financing.

The growth plan is essential, Vice President Marion Akers noted, since the fall, 1965, enrollment of 1790 will be almost doub'e the 900 enrollment envisioned for the campus when it was completed in 1961.

A summer bid date is expected, with construction to be completed in 1966, Cost of an estimated $375,000 will be repaid through bookstore and cafeteria receipts over the next several decades, under the revenue repayal plan. Campus dormitory expansion was handled in the same manner, Business Manager Alman noted.

Maize & O'Conlon Pleasing At Lodge

CRYSTAL BAY—"Fastest, funniest show in the West" . . . is the oft-quoted comment about the crowd-pleasing due of Maize & O'Conlon, now center-staging in the Topaz Room theater-lounge and dining room of North Tahoe's delightful Nevada Lodge.

Starting with a smash entrance, the pace never slackens as the two musical comedians swing from number to number. They belt out a crowd-p'easing show tune . . switch to a comedy routine, then dash into a solid beat pop number—seemingly without taking a breath. With Joe Maize's talking electric guitar and Marty O'Conlon's singing accordion—the duo's pleasing entertainment has scored major entertainment triumphs up and down the coast.

Maize & O'Conlon hold forth on the Nevada Lodge's Topaz Room stage through March 14.

Star-spangled key to a home of your own

A key to your own home is a mighty nice thing. Especially if it has stars and stripes on it.

The way to get one is to save U. S. Savings Bonds for the down payment. Or if you're beyond that point, for furniture or appliances, or the other things inside a house that make it a home.

A nest egg in Bonds can go a long way towards providing a nest and its contents — because each Series E Bond pays back $4 at maturity for every $3 you save.

Another thing you'll get is a nice red, white and blue feeling. The kind you get by giving your country a financial hand while you're saving.

It's easy to start saving Bonds today. A call to your payroll department, or a visit to your bank will do it.

Quick facts about Series E Savings Bonds
- You get back $4 for every $3 at maturity
- You can get your money when you need it
- Your Bonds are replaced free if lost, destroyed or stolen
- You can buy Bonds where you bank, or on the Payroll Savings Plan where you work

A get well quick to Arlene Reynolds of Agate Bay who is suffering from flu, throat trouble and whatever it is that you get every spring. (Spring? Who's kidding whom?)

With sore throat and all Arlene and Bill Reynolds entertained their mothers over the weekend. Bill's mother, Helen Reynolds, is from Fairfield. Arlene's mother, Ann Engell, is from Suisun. This time though the tables were reversed. Normally when grandma comes to visit the parents say a quick farewell and beat it to the doorway leaving grandma to babysit with the children. This time the two grandmmothers did the dashing to the doorway and were off for a pleasant evening on the town taking in the Mitzi Gaynor show on the south shore.

This group has, as its permanent project, the Caliente School for Girls, Caliente, Nevada. They sent games and toys at Christmas and several years ago they provided sewing machines for the girls. They discussed new money raising projects they plan to hold with the proceeds going to this project. Upcoming is the card party and a Dutch auction with dates not as yet planned.

NEWS FROM DONNER TRAIL

By Betty Kielhofer

A truly fine young couple will be my new neighbors in Olympic Heights soon. They are purchasing the Halcomb home and their names are Fred and Jean Tuemmler. Fred has a degree in forestry and is a new employee of Fibreboard. He's only been out of the service three months and this will be their very first home. Jean will be housekeeping and tending their fourteen month old son, David. I'm sure they'll be an asset to the community.

Dr. Marvin Schwartz, now of Tahoe City, informed me last week that he intends to run for the school board in the coming election for the 4th district. I asked him why, and he answered, "I have no bones to pick, no personal criticism to air. I simply feel I could serve my community better and would like to do it by aiding in the growth of our school system."

Rowena Scott had her son Frank home for a visit from the service last weekend. Rowena is the lady who helps many of us working gals keep our houses tidy and after comparing notes, absolutely none of us know just what we'd do without her. She's a real jewell!

Many of you know Sherman and Dorothy Bliss, of Sacramento and Lake Tahoe. Just received an announcement of the wedding of their only daughter, Michelle on the 1st of February. She is now Mrs. Lewis Lambert, Jr., with the ceremony taking place in Saint James Episcopal Church in San Francisco. Our sincerest congratulations to this grand young couple.

For the interested friends of Terry and Carol Tollefson, they have written they will definitely visit Truckee the 19th or 20th of March and are most anxious to take advantage of the skiing and to see their multitude of friends.

One more shirt-tail adorns the terminal bui'dings growing collection and it belongs to another Smith brother named Ray, who soloed last week. We only have one brother to go (and that's Tona) who will do so very shortly. All three took lessons together and we've tabbed them the "Soaring Smiths".

The Donner Lake Fire Department responded to a fire at the Hansen residence. The blaze was not serious and was nearly corrected when the department arrived. The fire started in the chimney above the fireplace.

* * *

Ginnie Strobel had an unfortunate accident last Friday while on a practice run at Mammoth Mountain. She sprained the ligaments in one foot and is on crutches. We hope you'll be ready for the next race, Ginnie.

* * *

Bess Reid enjoyed a week's vacation in Los Angeles, combining business and pleasure, visiting with her daughter who lives there. She reported the weather was great but that the usual heavy smog wasn't so pleasant. Bess arrived back at Reno by plane and brought the twins home for a week.

SIERRA SKIING

By VI WHITE

A big carnival is scheduled this weekend by the Bay Area Council of ski clubs of the Far West Ski Association. Fifteen teams will compete Sunday at Sugar Bowl with the times of three men and one woman counting for each team. The men and women will run separate giant slalom courses set by Junior Bounous, ski school director.

The carnival will get under way Saturday night with torchlight skiing down the slopes of Donner Ski Ranch at 7:30 and a skit contest in the lodge following.

Fraser West is race chairman and will have the following officials: John Pordon, Alpineers; Henry Mockel, Oakland; Axel Davidson, Vikings, and Walt Beardon, Oakland.

BAC chairman, Ron Lyon will present the trophies to the winners with the help of Sno-Queen Joanne Davies who will reign over the festivities all weekend.

* * *

Several members of the Viking Ski Club were practicing at Yosemite last week with their families getting ready for the big race. Enjoying the warm sunshine and good skiing were: the Charlie McVays, the Ed Carcots and Harvey Lufis.

* * *

The Oakland Ski Club held their championships at Sugar Bowl last weekend with Bob Stevenson of Berkeley winning the downhill and Walt Beardon of Oakland the slalom in the Class A event. Norm Brown of Oakland was third in the combined. Ray McDown of Richmond won the Class B trophy with Wayne Richards second and Tom Brown, third.

Cricket Mackinlay of Orinda was overall winner in the Class A women's meet. Bari Bradner, Berkeley, second, Loretta Jacobs, Orinda, third. The Class B women's was won by Joyce Jacobs of Walnut Creek with Darlene Migolia, Oakland, the only other contestant.

* * *

A strong team from the North barely nosed out the Southerners in the 9 annual North-South meet at Yosemite last weekend by only 19.5 seconds. The slaloms were run on Saturday and one Sunday. At times the South team was ahead as their girls had faster time in the last slalom, but our boys outskied their men in the final event.

Georgine Bihlman of Bakersfield and Ted Lerch, Marysville won top individual trophies for the six runs.

Truckee's 4th grade school teacher, Peggy Proctor of Yosemite did very well as did teammates Barbara Lerch and Tina Sorenson, both of Chico State.

North Captain Jack Turturici, San Mateo had good times as did George Batchelder, Sierra College; Charlie White, Donner Lake; Earl Hitch, Dodge Ridge; Mike Annette, Yosemite and Dan Marlowe, Sugar Bowl.

* * *

A fire on February 17 totally destroyed Dodge Ridge's new ski lodge, but business is as usual with ski and rental shops restocked and temporarily housed in other buildings.

SIERRA POWER FIRM TAKES STEP TO MOVE RESIDENCE TO NEV.

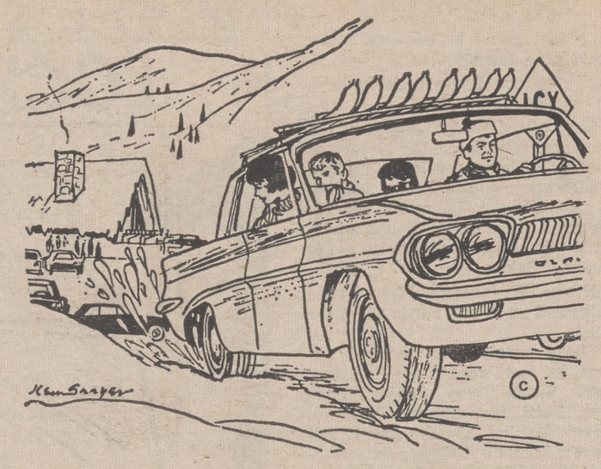
Sierra Pacific Power Company has taken another big step toward moving its legal residence to Nevada.

Directors of the firm have given their unanimous approval to a plan that will make Sierra Pacific a Nevada corporation rather than a Maine corporation.

With the directors' action the more than 10,000 owners of the company, its shareholders, will be asked to approve the move on March 22. More than half the shareholders live in Nevada and California.

Fred L. Fletcher, Sierra Pacific Power Company President said that if shareholders approval is obtained, the company's legal residence will be transferred to Nevada just as soon as approval of various regulatory agencies can be obtained.

Behind the Wheel



NATURE'S LAWS—There are traffic laws made by man, and traffic laws made by nature. You might ignore those made by man, but you can't ignore nature's laws. They seldom give you a second chance, advises the California State Automobile Association. One of these is friction. You cannot exercise complete control over your car unless there is adequate friction between the four wheels and the road. Your car cannot start, stop, turn or keep moving without it. Keep in mind that the amount of friction available to you will vary with the condition of your brakes, tires, and the road surface.

The Olympic Games are believed to have originated between 1453 and 776 B. C. and continued until 392 A. D. when they were abolished by the Roman Emperor Theodosius.

Senior Students May Seek Scholarships

Senior students at Tahoe-Truckee High School are eligible to apply for nearly 400 four-year scholarships offered by General Motors at more than 200 colleges and universities which participate in the GM Scholorship plan.

Any secondary school senior or graduate who is a citizen of the United States is eligible for consideration. The initial awards are made to entering freshmen and may be renewed through the normal four undergraduate years for those with satisfactory records. There is no restriction on course of study or career. Stipends range from an honorary award of $200 to a maximum of $2,000 a year, depending on demonstration of need.

The participating institutions include 125 private and 77 public colleges and universities in 50 states, the District of Columbia and Puerto Rico.

Participating colleges have full discretion in the awarding of the scholarships. Their scholarship committees review the applicants' high school academic records, available entrance test scores, participation in extracurricular activities and leadership traits. Most colleges also require personal interviews. Application should be made directly to the participating colleges and not to General Motors.

Interested students should see their high school counselors for details.

1,532 IN COUNTY RECEIVING AID

In Nevada County during December, 1964, there were 1,532 recipients of publicly supported welfare programs according to a study just completed by California Taxpayers' Association. A 10.2 per cent increase in the number of recipients has occurred since December, 1959, when 1,390 people were on the welfare rolls.

Statewide 913,654 recipients of welfare assistance were tabulated for December, 1964, the mid-point of the fiscal year 1964-65. This compares with 612,501 recipients aided in December of 1959-60 year. During the five-year period an increase of 49.2 per cent occurred in the number of recipients aided. "Population throughout the state increased by 18.4 per cent in the period from the 1960 census to January 1, 1965," commented S. J. Arnold, the association's executive director.

The huge 1964 state relief roll figure was made up of 270,678 recipients of old age security, 12,357 receiving blind aid, 55,232 on the aid to the needy disabled, 532,987 children and adults on the aid to families with dependent children program, and 42,400 receiving general home relief.

Welfare costs for 1964-65, as estimated in the governor's budget, excluding about $25 million in county-financed general relief, will reach $1,008,720,870 by the time the year ends next June 30. This is comparable to costs for 1969-60 totaling $501,313,470. In the five-year period during which population increased by a little over 18 per cent, welfare expenditures more than doubled.

Lassen Volcanic National Park had 409,000 visitors in 1964, a gain of 10.4 per cent over the previous year.

SIERRA TAHOE HOTEL IS SOLD

INCLINE VILLAGE—Sierra Tahoe Hotel here has been sold to three Southern California partners for $2.5 million. The trio plan to spend $5 million on a gambling casino and a major expansion program.

Construction will include 100 additional rooms and suites, a swimming pool, and the first casino at Tahoe with a glass wall overlooking the beach and lake.

New owners include Roy Lewis of Hollywood, for eight years distributor for imported cars; Norman Tyrone, Santa Monica financier; and H. K. Riel of Studio City.

Sellers of the property, at the northeast corner of Lake Tahoe, were a group of San Francisco Bay Area executives of Pacific Bridge Company.

S. P. Fined $1,000 In Colfax Explosion

COLFAX—The Southern Pacific Company was fined the maximum $1,000 in the Colfax Justice Court by Judge George Yanehiro after the company pleaded nolo contendere to a charge of violating the state health and safety code dealing with the storage of explosives.

The plea late last year concerned charges stemming from an explosion September 27, 1964, when Leroy Sanders and Robert J. Becker, both 15 and of Colfax, were killed.

The charges brought by Placer County District Attorney Daniel Higgins were concerned with the construction of powder houses in the improper storage of caps and powder.

The youths were hunting near the powder magazine when the explosion occurred.

20 Students Plan To Take Tests In Merit Scholarship

Twenty students at Tahoe Truckee High School plan to take the 1965 National Merit Scholarship Qualifying Test, Harold Drummond, principal, announced today.

The test will be administered at the school at 9 a. m. Tuesday, March 9. All students who wish to be considered for merit scholarships to be awarded in 1966 should take the test at that time.

The NMSQT is a three-hour examination of educational development. The test is the first step in the eleventh annual competition for four-year merit scholarships provided by the National Merit Scholarship Corporation and by sponsoring corporations, foundations, colleges, associations, unions, trusts, and individuals.

The number of scholarships awarded in any year depends upon the extent of sponsor participation. In 1964, 1652 merit scholarships were awarded; 1146 were provided by 227 sponsors and 506 by the Merit Corporation. There are 4880 Merit Scholars attending 485 colleges in the current academic year.

The test scores of students who are examined in March will be reported to their schools before May 15. The scores are used by counselors in many high schools to help students make decisions about college attendance and field of study. Many students who do not expect to win a scholarship take the test in order to learn more about their individual strengths and weaknesses in the areas measured by the test.

Seven-eighths of Canada's population growth in 1964 was due to its excess of births over deaths, the gain by migration amounting to only about 45,000 persons for the year.

State Join Forces In Lake Pollution Study

AL TAHOE — The states of California and Nevada last week joined forces to develop a long term surveillance program for early detection of possble pollutants changing the clarity and purity of the waters of Lake Tahoe. This program was cited as essential by the board of sewage consultants retained by the Lake Tahoe Area Council to conduct a $125,000 sewage engineering study in 1962, resulting in a request to the states of California and Nevada to conduct a minimum surveillance program of the lake in order to develop a base of information to detect these changes.

Representatives from the California and Nevada health departments and water agencies met last week at the council offices for a work session to discuss procedures to be followed in this program. W. W. White and J. T. Leggett, the governors' coordinators in connection with the sewage export program were in attendance and Arthur J. Inerfeild of the California Department of Water Resources was named by Governor Brown as the overall coordinator. The framework of the lake surveillance will be conducted by the department of water resources of California with the other agencies from both states involved in laboratory analysis, etc.

The nature of the surveillance program is one which will maintain an observation of the chemicals which tend to stimulate the growth of algae in the lake and will serve as a check on the clarity, transmission of light and observe any changes taking place at the bottom of the lake.

Initial sampling will commence the middle of April with a series of reports to follow wihich will be made available to the public. Sampling will be a joint effort conducted at laboratories in Berkeley, Reno, Sacramento and the University of California at Davis.

Squaw Post Office

(Continued from Page 1)

living there were urged to buy their stamps at the local office.

Outcome of the talks is that Mrs. Poulsen has been asked to draft the petitions to retain the service in their home area for many reasons, including the great increase in population during conventions and by other vistors, both summer and winter, and the 16 miles round trip being required, even under adverse weather conditions, by the local people to get their mail if the post office is transferred.

A resolution was born out of the meeting to the affect that "We, the people of Squaw Valley, Placer County, California, urgently request that the U. S. Post Office Department change the name of our postal facility from Olympic Valley to Olympic-Squaw Valley and that a full time postal operation be installed in this Squaw Valley, Placer County, California."

Johnson Bill Would Aid Communties In Worthy Projects

Congressman Harold T. (Bizz) Johnson of the 2nd, mountain-Valley counties, district introduced the Local Public Works Act of 1965.

"This bill," the representative explained, "would authorize federal assistance to local government for construction of community facilities. Through the impetus of this legislation it is hoped that the tremendous backlog of needed improvements and additions to our inventory of local public works would be overcome."

Johnson pointed out the bill itself sets forth the basic statement of policy when it declared:

"The congress hereby declares that the general welfare of the nation and the health and living standards of its people require a high level of new investment in local public works to meet community needs. A wide range of public facilities is essential to the livability of our towns and cities, but in many places they are not available in adequate amount or quality to meet even minimum standards.

"As a result of heavy financial pressures on state and local government, a large and critical backlog of needed public works has developed which can be eliminated within a reasonable time only if assistance from the federal government is available.

"This backlog is stifling and distorting the growth of many towns and cities and has seriously inflated the price of land available for development. The lack of adequate public facilities is also a factor in retarding the expansion of employment and new private investment in many areas.

"Rational planning for the best development of our towns and cities requires assurance that financing will be available to carry out a continuing program of overcoming present deficiencies and meeting the needs of growth. To meet this need, it is the purpose of this act to establish a continuing authorization for federal grant assistance for local public works generally."

Other provisions of the legislation sponsored by Congressman Johnson and other members of the public works committee which will have jurisdiction of the proposal include the following:

1. Communities would be eligible without regard to population, unemployment or other limitations.

2. Grants would be on a matching basis with local agencies contributing at least a third except in areas designated under the area redevelopment act. In these areas, contributions from local agencies could be limited to a fourth.

3. Nearly all kinds of local public works, except schools, would be eligible. Included would be sewer and water facilities, streets and street improvement, public building, parks and playgrounds, hospitals and community centers. School construction assistance would be covered under separate legislation.

A mining settlement in the Andes is situated at 17,500 feet, the highest altitute regularly inhabited by man.

Business Increase Noted In Truckee

Nevada County listed 3.6 per cent fewer businesses in 1964 than in 1954, according to a report released today by Dun & Bradstreet.

Grass Valley realized a 2.6 per cent increase and Truckee a 4.5 per cent increase in the number of listed businesses for this ten year period, while Soda Springs showed a loss of 7.6 per cent and Nevada City suffered a 2.9 per cent decrease for the same period.

"There were 402 businesses listed this past year in Nevada County, which is a decrease of 15 businesses over 1954", said William M. Gordon, district manager of the San Francisco office of Dun & Bradstreet.

Basing his facts upon the figures in the November 1964 Reference Book, Gordon points out that the 447 counties of Northern California as a whole, showed an increase of 2.7 per cent for this ten year period.

The Reference Book lists only manufacturers, wholesalers, retailers, and some service companies, such as gasoline service stations and laundries. It does not include all professional and service businesses, such as barber and beauty shops, real estate and stock brokers.

Comparative figures listed in the Dun & Bradstreet Reference Book, showed the Truckee listings increased from 66 to 69 between November, 1954 and November, 1964, while Nevada City dropped from 104 to 73 during the ten years. Soda Springs went from 13 to 12 and Grass Valley increased from 224 to 230.
